Gold King Photo Log Aug 6 2015.docx

Hi Steve,

I went to the Gold King today and took some additional photos and collected some water quality readings (the adit pH is ~3.0). Please find the photo log of events for today attached. Let me know if you have any questions or comments. I plan on demobilizing Saturday as we have additional START team members on-site for the ER effort and Red and Bonita is still proceeding per schedule, they began the coffer dam work today per Will's comments. I will have a replacement car on site tomorrow and will be glad to have it!

Thank You,

Elliott
